Week 2 Assignment

Submit a single program which displays the output to each problem. See the Program Grading Rubric for details on how your program will be scored. Points will be awarded as follows:

- Documentation & Style (10%)
  Program header
  Clear documentation between each sub-problem

- Syntax (50%)

- Correctness (10%)

- Logic (10%)

- Reusability (10%)

- Usability (10%)

- Total 40 Pts

Programming Problems

Please complete the following programs from the "Programming Challenges" section of Chapter 9 of your textbook. They are listed at the end of the chapter.

Please compete the following three problems: #1, #2, #5, #10

When you are finished, then please submit your .cpp file through Canvas.
